# Muhammad Atif Latif

CEO FreeToolz.cloud | AI Engineer & Data Scientist | Web App Builder | Creating Free Online Tools for Productivity, Learning, and Development

Faisalabad, Punjab, Pakistan

## Summary

I am Muhammad Atif Latif. As a dedicated Machine Learning Engineer, I am passionate about leveraging technology to solve complex problems and drive innovation. With a strong foundation in algorithms, data analysis, and predictive modeling, I specialize in developing scalable machine learning solutions that empower businesses to harness the power of their data.

My experience spans various domains, including [GloriaVita CraftTech Solution as a python intern], where I have successfully implemented models that enhance operational efficiency and inform strategic decision-making and as well as my coding practice. I thrive in collaborative environments, working alongside cross-functional teams to translate business needs into actionable insights.

I am committed to continuous learning and staying at the forefront of emerging technologies in artificial intelligence and machine learning. My goal is to contribute to transformative projects that not only push the boundaries of technology but also create meaningful impact.

I welcome connections with fellow professionals and organizations eager to explore the potential of machine learning and its applications. Let's connect and drive technological advancement together.

## Experience

FreeToolz  
Chief Executive Officer  
November 2025 - Present (1 month)

## Upwork

Professional Freelancer

April 2025 - Present (8 months)

Faisalabad, Punjab, Pakistan

Excited to Announce – I'm Now on Upwork as a Freelance Data Scientist & AI Developer!

After months of hands-on learning and project-building through the DSAAMP program by Codanics, I've officially launched my freelance journey on Upwork!

As a dedicated Data Scientist and AI Engineer, I specialize in:

Interactive dashboards using Streamlit

Data analysis & visualization with Pandas, Plotly, and Seaborn

Machine Learning models using Scikit-learn

Web scraping, automation, and more

If you're looking for clean, efficient, and impactful data solutions — whether short-term or long-term — I'm ready to deliver.

Let's work together to turn data into smart decisions.
